

Full Port Globe and Angle Valves

E-Z Turn Knob
Sold Separately

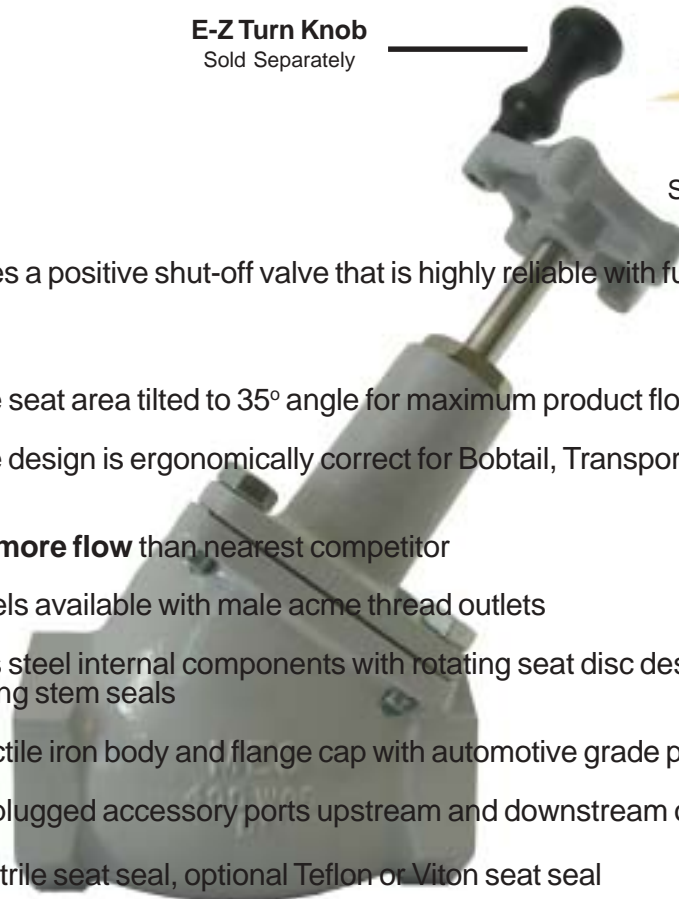

Shown in Open Position

Purpose: Provides a positive shut-off valve that is highly reliable with full flow performance

Features:

- Globe valve seat area tilted to 35° angle for maximum product flow
- Globe valve design is ergonomically correct for Bobtail, Transport, & Bulk Plant applications
- **Up to 70% more flow** than nearest competitor
- Globe models available with male acme thread outlets
- All stainless steel internal components with rotating seat disc design & V-cup teflon packing stem seals
- Durable ductile iron body and flange cap with automotive grade powder coat finish
- 1/4" FNPT plugged accessory ports upstream and downstream of valve seat
- Standard Nitrile seat seal, optional Teflon or Viton seat seal

BALL VALVE FLOW,
GLOBE VALVE SAFETY &
RELIABILITY!

Patent Pending

Full Port Globe & Angle Valves			
Part No.	Description	Inlet	Outlet
ME815-10	Full Port Angle Valve	1-1/4" FNPT	1-1/4" FNPT
ME825-10	Full Port Globe Valve	1-1/4" FNPT	1-1/4" FNPT
ME826-10	Full Port Globe Valve	1-1/4" FNPT	1-3/4" M. Acme
ME827-10	Full Port Globe Valve	1-1/4" FNPT	2-1/4" M. Acme
ME815-16	Full Port Angle Valve	2" FNPT	2" FNPT
ME825-16	Full Port Globe Valve	2" FNPT	2" FNPT
ME828-16	Full Port Globe Valve	2" FNPT	3-1/4" M. Acme
* To order Teflon or Viton Seal add "T" for Teflon and "V" for Viton after the prefix part number i.e. ME815T-10 or ME815V-10
