

Clamp Style Hose Couplings

The **ME3162** Series Hose Couplings are designed with you in mind. Each piece is constructed of zinc plated steel or powder coated ductile iron to handle even the most rugged environment.

Installation is made easy due to a boss on the clamp section to keep the bolt from rotating during installation.

The wide offering of sizes and configurations, makes it possible to handle most applications without the addition of bulky and heavy additions.

All clamp sections and hose barbs are made of steel and ductile iron, making them useable in both LP-Gas and NH3 applications.

The **12S, 20B, 20S, 32B, & 32S** sizes, offer female ACME swivels to eliminate the need to add additional weight and bulk to your hose.

Hose Couplings - Clamp Style	
Part No.	Description
ME 3 1 6 2 - 0 8	Steel Coupling, 1/2" HB x 1/2" MNPT
ME 3 1 6 2 - 1 2	Steel Coupling, 3/4" HB x 3/4" MNPT
ME 3 1 6 2 - 1 2 S	Steel Coupling, 3/4" HB x 1 3/4" Female Acme, Steel Nut
ME 3 1 6 2 - 1 6	Steel Coupling, 1" HB x 1" MNPT
ME 3 1 6 2 - 2 0	Steel Coupling, 1 1/4" HB x 1 1/4" MNPT
ME 3 1 6 2 - 2 0 B *	Steel Coupling, 1 1/4" HB x 2 1/4" Female Acme, Brass Nut
ME 3 1 6 2 - 2 0 S	Steel Coupling, 1 1/4" HB x 2 1/4" Female Acme, Steel Nut
ME 3 1 6 2 - 2 4	Steel Coupling, 1 1/2" HB x 1 1/2" MNPT
ME 3 1 6 2 - 3 2	Steel Coupling, 2" HB x 2" MNPT
ME 3 1 6 2 - 3 2 B *	Steel Coupling, 2" HB x 3 1/4" Female Acme, Brass Nut
ME 3 1 6 2 - 3 2 S	Steel Coupling, 2" HB x 3 1/4" Female Acme, Steel Nut
* For use with LP-Gas Only
