

# Type I Installation Adapters

\*\*\* NEW PRODUCT \*\*\*

ME393-1

ME399

ME398

**Application:** Provides a safe permanent outlet when installed into the household LP Gas system. This permanent outlet eliminates the need for smaller containers when operating outdoor LP Gas equipment.

## Features:

- Available with a variety of inlet connections
- Available with or without excess flow feature or quick closing shutoff device
- Models ME398 and ME399 provide a leak free means by which outdoor equipment can be safely connected and disconnected without shutting down entire system
- Can be used with both Type 1 (1-5/16" Acme) and male POL (.880-14NGO-LH) connections

Type I Installation Adapters		
Part No.	Description	Shutoff Device
<b>ME 393 - 1</b>	1-5/16" M. Acme x 1/4" FPT Adapter	None
<b>ME 393 EX</b>	1-5/16" M. Acme x 1/4" FPT Adapter	.9 GPM Excess Flow
<b>ME 393 EX 18</b>	1-5/16" M. Acme x 1/4" FPT Adapter	1.8 GPM Excess Flow
<b>ME 398</b>	1-5/16" M. Acme x Male Soft Nose POL	Quick Closing
<b>ME 399</b>	1-5/16" M. Acme x 1/4" MPT Adapter	Quick closing

\* It is recommended to install a shutoff valve upstream from the installation adapter inlet to facilitate future servicing.
