

SAFETY STROKE

Mounted on
1-1/4" ESV

Mounted on
3" ESV

ESV not included

Features:

- All critical components constructed with durable, corrosion resistant **stainless steel**
- A perfect fit for the Fisher® N550 Emergency Shutoff Valve series
- The ME551 Safety Stroke is designed to fit all ESV sizes
- Features the Airstroke® Actuator by Firestone
- Utilizes existing Fisher® thermal device
- Features the same robust tubular design as the Marshall Excelsior ME205 with smooth-acting cam and heavy return spring
- Allows ESV to completely open ensuring full flow
- Easy to install without modification
- Operating Pressure Limits: Minimum - 20 PSIG
Maximum - 125 PSIG
Recommended - 20-25 PSIG
- Temperature range -60° F to 250° F

Safety Stroke Actuator	
Part No.	Description
ME 551	Safety Stroke Emergency Shutoff Valve Actuator for LP Gas and NH₃
Accessories	
Part No.	Description
ME 707	Quick Release Valve - 1/4" FNPT Inlet and Outlet
ME 708	Air Pressure Regulator 0-150 PSI - 1/8" FNPT Gauge Ports - 1/4" FNPT Outlet with Mounting Bracket
ME 709	1/4" FNPT x 1/4" MNPT LP Gas and Air Filter - Aluminum
