

# Multi-Service ASME Container Vapor Valves

**ME662**  
Multi-Service Valve

## APPLICATION:

Intended for use in vapor withdrawal service for ASME containers or as fuel line shutoff valves in combination with a integral double check fill and vapor equalization valve.

**NOTE:** These valves do not incorporate an internal pressure relief valve and are intended for use in containers that have a stand-alone pressure relief valve sized to properly handle the container's capacity.

## FEATURES:

- One piece forged brass body construction
- Dual o-ring packing design
- Easy to repair / replace bonnet assembly
- Universal bonnet assembly
- Heavy duty replaceable zinc hand wheel
- 1/4" FNPT plugged test port
- SC model features optional self-cleaning LE thumb screw vent

Multi-Service ASME Container Vapor Valves
