Dry Break Transfer System

ME806-16

ME868-16

Patent Pending

Full Port Globe Valve Not Included

Application: For use with LP gas transfer systems. This revolutionary system provides a safe, ergonomic and efficient solution to LP Gas transfer applications while increasing productivity and dramatically reducing fugitive product emissions. For use with bobtail, transport, railcar, and bulk plant applications.

Features:

- **Minimum \$350 Savings per 1,000 fills** (See reverse for payback chart)
- Reduces product emissions **99.6%** over standard valves
- 100% compatible with all existing Acme transfer connections
- Heavy duty spring loaded safety latch prevents accidental opening of valve
- Cam operated vapor equalization feature for smooth valve operation
- Hardened steel bearing race with stainless steel ball bearings for maximum product life
- All stainless steel internal components
- Factory installed hydrostatic relief valve
- Convenient carrying handles and custom fit dust plug with lanyard
