

# Remote Bleeder Elbow

---

**MEJ606**

## **Application:**

Specifically designed for detecting tank liquid levels in remote filling applications where a standard fixed maximum liquid level gauge is not practical. Perfectly suited for motor fuel applications of other hard to reach tank applications.

## **Features:**

- Single piece brass body
- Removable thumb screw for serviceability
- #54 orifice through hole

Part #	Description
<b>MEJ606</b>	1/4" MNPT x 1/4" M. Flare Remote Bleeder Elbow Assy. - #54 Orifice
