

# 1-3/4" Acme Conical Filter Adapter

## DESCRIPTION

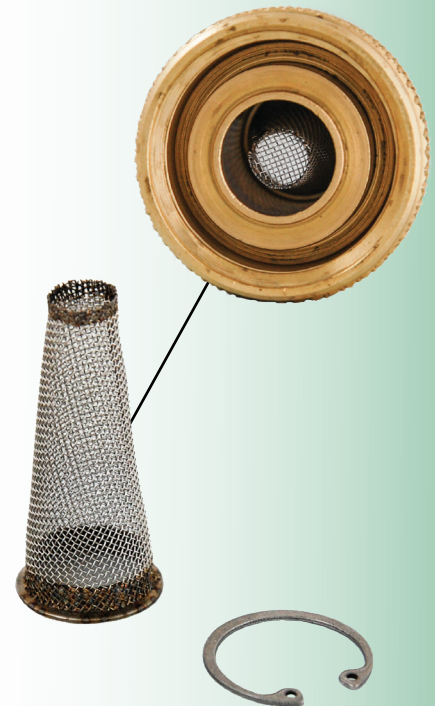

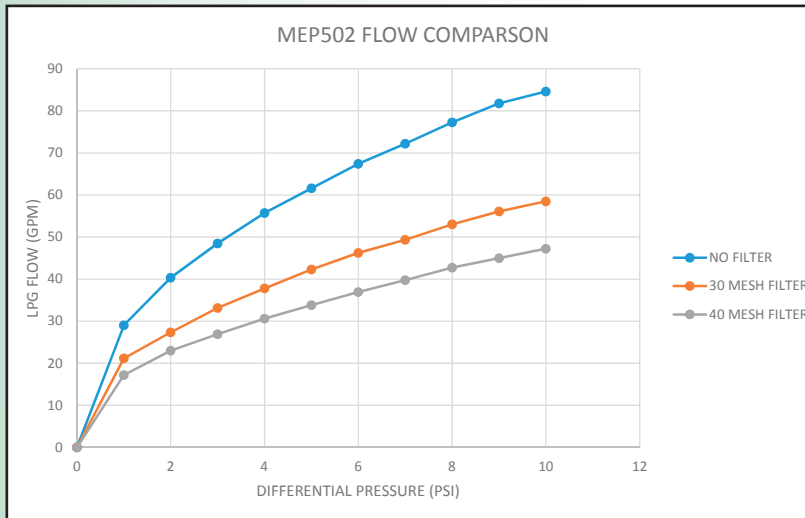

Ideal for filtration of any 1-3/4" acme liquid or vapor line. The adapter easily threads on or off male 1-3/4" acme connections making the filter element portable and reusable. Perfectly suited for bobtail auxiliary pump inlets, tank liquid evacuation, or even vapor lines where particulates must be separated from LPG.

## FEATURES

- Reinforced filter element features perforated stainless steel body & retainer lip
- All Brass body construction
- Available with standard 30 mesh or optional 40, or 100 mesh filter screens
- All welded screen construction
