

Excelsa-Flange Series

High Flow Pump Auxiliary Suction Intake Flange Adapters

MEP998

3"-4 BOLT FLANGE X 2"-4 BOLT FLANGE ADAPTER

APPLICATION:

Specifically designed to bolt directly to 3"- 4 bolt flange auxiliary suction intake openings on standard 4" flange mount mobile transport trailer pumps to eliminate unwanted threaded joints. The MEP998 is equipped with a 4 bolt type A flange inlet for mounting to either ME842 or ME843 series Excelsa-Flange™ companion flanges where additional piping is desired or direct bolt onto ME819P Series Excelsa-Flange™ globe valves for a worry-free easy to maintain auxiliary intake assembly.

FEATURES:

- Zinc plated ductile iron body
- Approved for use in LPG or NH₃ service
- Rated 400 WOG
- For use with all Type B (ME842 & ME843 Series) companion flanges
