

Serviceman's Replacement Seal Kit

MEW1

Purpose: Provides a convenient storage system for all common LP Gas and anhydrous ammonia gaskets and O-rings. Perfect for dispenser cabinets or bobtail and transport drivers.

Features:

- Durable ABS plastic container with storage latch
- Preformed insert with individual spaces for each gasket/O-ring size
- Labeled with each gasket/O-ring size and part number for easy identification and reorder purposes
- All gaskets/O-rings manufactured from  approved compounds for LP Gas and Anhydrous Ammonia service.
